backuppc @ harmine : backup de puppet.vm.april-int échoué

06/08/2013 15:15 - Quentin CHERGUI

Statut:	Fermé	Début:	06/08/2013
Priorité:	Élevée	Echéance:	
Assigné à:	Quentin CHERGUI	% réalisé:	100%
Catégorie:		Temps estimé:	0.00 heure
Version cible:		Temps passé:	0.00 heure
Difficulté:	2 Facile		

Description

L'état du backuppc@harmine indique que la machine puppet.vm.april-int n'est pas sauvegardé.

Extrait du fichier de log :

```
2013-08-06 15:07:08 full backup started for directory /
2013-08-06 15:07:09 Got fatal error during xfer (fileListReceive failed)
2013-08-06 15:07:14 Backup aborted (fileListReceive failed)
```

Historique

#1 - 06/08/2013 15:41 - Quentin CHERGUI

Fouille dans les logs de backuppc :

```
full backup started for directory /
Running: /usr/bin/ssh -q -i /var/lib/backuppc/.ssh/abackup -o UserKnownHostsFile=/dev/null -o StrictHostKeyChecking=false -x -l abackup puppet.vm.april-int /var/local/abackup/rsync_sender --server --sender --numeric-ids --perms --owner --group -D --links --hard-links --times --block-size=2048 --recursive --checksum-seed=32761 --one-file-system --bwlimit=2560 --ignore-times . /
Xfer PIDs are now 9564
Got remote protocol 1768845161
Fatal error (bad version): ionice:
Sent exclude: /proc
Sent exclude: /sys
Sent exclude: /backup
Sent exclude: /mnt
Sent exclude: /var/cache/apt/archives
Read EOF:
Tried again: got 0 bytes
fileListReceive() failed
Done: 0 files, 0 bytes
Got fatal error during xfer (fileListReceive failed)
Backup aborted (fileListReceive failed)
Not saving this as a partial backup since it has fewer files than the prior one (got 0 and 0 files versus 0)
```

Tentative d'exécuter la commande à la main : il semblerait juste que sudo ne soit pas installé :

```
root@harmine:~# /usr/bin/ssh -q -i /var/lib/backuppc/.ssh/abackup -o UserKnownHostsFile=/dev/null -o StrictHostKeyChecking=false -x -l abackup puppet.vm.april-int /var/local/abackup/rsync_sender --server --sender --numeric-ids --perms --owner --group -D --links --hard-links --times --block-size=2048 --recursive --checksum-seed=32761 --one-file-system --bwlimit=2560 --ignore-times . /
bash: warning: setlocale: LC_ALL: cannot change locale (fr_FR.UTF-8)
/bin/bash: warning: setlocale: LC_ALL: cannot change locale (fr_FR.UTF-8)
ionice: executing sudo failed: No such file or directory
```

Ça se confirme en se connectant sur la machine :

```
root@puppet:~# sudo
-bash: sudo: command not found
```

#2 - 06/08/2013 15:56 - Quentin CHERGUI

- Sujet changé de backuppc @ harmine : lackup de puppet.vm.april-int échoué à backuppc @ harmine : backup de puppet.vm.april-int échoué

Un puppet agent -vt --noop indique bien que Puppet aimerai installer sudo, avec la classe backuppc::client :

```
root@puppet:~# puppet agent -vt --noop

```

On a une idée de la raison pour laquelle il n'est pas installé ?

#3 - 07/08/2013 20:54 - Loïc Dachary

Après un

```
apt-get update
```

j'ai fait un

```
root@puppet:~# puppet agent -vt
info: Retrieving plugin
```

```
info: Loading facts in /etc/puppet/modules/stdlib/lib/facter/puppet_vardir.rb
info: Loading facts in /etc/puppet/modules/stdlib/lib/facter/pe_version.rb

```

car en effet, il n'avait pas du être run depuis un certain temps.

#4 - 19/08/2013 16:35 - Quentin CHERGUI

- *Statut changé de Confirmé à Résolu*

- *% réalisé changé de 0 à 100*

Les mises à jour se font correctement.
Le problème est résolu.

#5 - 29/05/2019 12:11 - Quentin Gibeaux

- *Statut changé de Résolu à Fermé*

#6 - 26/12/2020 02:36 - Christian P. Momon

- *Description mis à jour*

- *Assigné à mis à Quentin CHERGUI*
