### #11 - 05/10/2017 15:50 - François Poulain

La remise en route du script de génération des transport annonce des erreurs de conf. J'ai été un peu berserck sur les archives. Mais il y a du bordel depuis longtemps, visiblement. Pour y remédier :

```
root@sympa:/var/lib/sympa# sed -i expl/*/*/config -e '/^web_archive/ N; /^web_archive\nweb_access/d' | grep -C 3 'archive$'
```

Ça permet de supprimer les occurrences de

```
-web_archive  
-web_access private
```

qui font doublons avec

```
archive  
web_access private
```

### #12 - 05/10/2017 15:56 - François Poulain

Reste des erreurs :

```

[ ] migrer la gestion des transports de cron vers incron ;

Je suspend pour le moment. Le schéma de transport sympa m'a l'air un peu alambiqué par rapport à ce qui me semble nécessaire. Peut être ça

nécessite une mise au point avant d'y toucher. C'est pas cassé, donc pas la peine de réparer. :)

**#17 - 10/10/2017 10:12 - Frédéric Couchet**

Pour avoir accès aux archives par envoi de courriel au robot Sympa il faut ajouter une ligne genre :

mail\_access private

dans l'entrée archive du fichier config de chaque liste.

Les fichiers de config ont été mis à jour
