CHECK_NRPE: (ssl_err != 5) Error - Could not complete SSL handshake with 127.0.0.1: 1
```

réglé comme suit :

```
1868 Sun 03 Nov 2019 03:03:18 PM CET apt-mark unhold nagios-nrpe-server
1869 Sun 03 Nov 2019 03:03:29 PM CET apt dist-upgrade

#4 - 04/11/2019 10:41 - Quentin Gibeaux

backuppc n'arrive plus à pinger "localhost", résolu en ajoutant (proposé dans le ufc-dist) :

```
diff --git a/backuppc/config.pl b/backuppc/config.pl
index b67acf3..c87fa6c 100644

Effectivement c'est curieux.

Le fix backuppc me convient. :)

#7 - 23/11/2019 12:08 - François Poulain

- Statut changé de *En cours de traitement* à *Résolu*
- % réalisé changé de 90 à 100

Et depuis la migration initiale, j'ai corrigé la conf NRPE. Donc le ticket est fermable.
