**Description**

La version 23.0.10 contient des correctifs de sécurité.

<https://www.cert.ssi.gouv.fr/avis/CERTFR-2022-AVI-961/>

Mise à jour réalisée en suivant la [procédure](#):

```
=(^-^)=root@valise:/var/www/valise.chapril.org/public_html# sudo -u www-data php updater/updater.php
Nextcloud Updater - version: v20.0.0beta4-11-g68fa0d4
```

Current version is 23.0.5.

```
Update to Nextcloud 23.0.10 available. (channel: "stable")
Following file will be downloaded automatically: https://download.nextcloud.com/server/releases/nextcloud-23.0.10.zip
Open changelog ↗
```

```
Steps that will be executed:
[ ] Check for expected files
[ ] Check for write permissions
[ ] Create backup
[ ] Downloading
[ ] Verify integrity
[ ] Extracting
[ ] Enable maintenance mode
[ ] Replace entry points
[ ] Delete old files
[ ] Move new files in place
[ ] Done
```

```
Start update? [y/N] y
```

Info: Pressing Ctrl-C will finish the currently running step and then stops the updater.

```
[ ] Check for expected files
[ ] Check for write permissions
[ ] Create backup
[ ] Downloading
[ ] Verify integrity
[ ] Extracting
[ ] Enable maintenance mode
[ ] Replace entry points
[ ] Delete old files
[ ] Move new files in place
[ ] Done
```

Update of code successful.

```
Should the "occ upgrade" command be executed? [Y/n]
Nextcloud or one of the apps require upgrade - only a limited number of commands are available
You may use your browser or the occ upgrade command to do the upgrade
```

```
